SYMBOLS

The following standard symbols are used in this publication:

..	figures not available
...	figures not appropriate or not applicable
-	nil or zero
--	amount too small to be expressed
x	confidential
p	preliminary figure(s)
r	revised
M	thousand(s)
MW.h	megawatt hours
GW.h	gigawatt hours

Note: Components may not add to total due to rounding.

PREFACE

The Alberta Statistical Review, Quarterly provides statistical tables and graphs containing monthly or quarterly data on the economy of Alberta, as well as a brief narrative highlights page. The publication is organized into the following ten sections: Summary of Major Economic Indicators, Population, Labour Force and Related Statistics, Price Indexes, Energy and Natural Resources, Construction, Manufacturing, Agriculture, Trade and Commerce and Travel. The majority of the tables present data at the provincial level while others present data for communities or compare the economy of Alberta with that of Canada and other Provinces.

To obtain additional information regarding this publication or the data within, users are invited to contact the Information Services Section, Alberta Bureau of Statistics, (403) 427-3058.

GLOSSARY.....105

APPENDIX.....115

HIGHLIGHTS
AND
SUMMARY OF MAJOR ECONOMIC INDICATORS

HIGHLIGHTS

- According to preliminary estimates, the population of Alberta on 1-Oct-82 was 2,332,000, a level 0.5 percent higher than that of three months earlier, and 3.1 percent or 70 thousand persons higher than that of the previous year.

- The proportion of Alberta's labour force which is unemployed consistently remains one of the lowest in Canada. At 9.7 percent in Dec-82, Alberta's unemployment rate was second only to that recorded in Saskatchewan, and compared favourably with the national rate of 12.7 percent for the same month. The level of Alberta's unemployment rate can in part be attributed to the high level of labour force participation in the province. In Dec-82, Alberta's labour force participation rate was 70.2 percent. This was the highest provincial rate in Canada.

- A decline in gasoline prices, coupled with lower over-all food costs, contributed to a Nov. to Dec. decrease in the all-items Consumer Price Index(CPI) for both Edmonton and Calgary. Declining by 0.1 percent and 0.6 percent respectively, the movement of the Edmonton and Calgary CPI's compared favourably with that nation-wide, where the index remained virtually unchanged over the two month period. Between Dec-81 and Dec-82, the CPI for Edmonton rose 8.7 percent, and that for Calgary increased 9.1 percent. Canada wide, the CPI increased 9.3 percent over the same twelve month period.

- Preliminary estimates indicate that during the first eleven months of 1982, the value of goods shipped from Alberta manufacturers totalled $11,212.8 million, a level 4.9 percent below that recorded for the same period in 1981. At the national level, the total value of manufacturing shipments recorded during the first eleven months of the year dropped 3.4 percent between 1981 and 1982.

- During Nov-82, the value of retail sales transacted in Alberta reached $952 million, a rise of 3.5 percent over the previous month, and a decline of 0.4 percent with respect to Nov-81. Year-to-date comparisons indicate that the dollar value of Alberta retail sales has risen marginally, from $9,749 million during the first eleven months of 1981, to $9,769 million during the same period in 1982. Over this same time period, the value of all retail sales transacted Canada wide rose 2.9 percent.

SOURCE: STATISTICS CANADA, CATALOGUE NO. 62-007

NOTE: THESE BASE-WEIGHTED PRICE INDEXES RELATE TO THE SELLING PRICES OF NEW HOUSES CONSTRUCTED BY LARGE AND MEDIUM VOLUME BUILDERS IN METROPOLITAN AREAS. THE PRICES USED EACH MONTH ARE THOSE PERTAINING TO CONTRACTS BETWEEN BUYER AND SELLER SIGNED AT THAT TIME.

IT SHOULD BE NOTED THAT THE AVERAGES ARE NOT COMPARABLE BETWEEN CITIES SINCE THEY REFLECT DIFFERENT MIXES OF SINGLE, SEMI-DETACHED AND ROW HOUSING.

GLOSSARY

GLOSSARY

AVERAGE RATE ON NEW DEMAND LOANS

The average rate on new demand loans is derived from a quarterly sample survey of chartered bank lending rates initiated by the Bank of Canada in November, 1968 with the co-operation of the chartered banks. The survey covers all loan transactions whereby a customer's account is credited with funds whether under existing, new or renewed authorizations. It specifically excludes unsecured personal loans, residential, mortgage loans, day loans, call loans and loans to grain dealers.

BANK RATE

The Bank Rate is the minimum rate at which the Bank of Canada makes short-term advances to the chartered banks or to savings banks governed by the Quebec Savings Bank Act.

CANSIM

CANSIM is the name given to Statistics Canada's computerized data base. It is often termed a general purpose data bank offering a detailed and conceptually compatible set of aggregate data pertaining to a large number of interrelated fields. CANSIM contains over 300,000 timeseries of socio-economic information. An example of a timeseries would be the annual population of Edmonton for a twenty-year period.

The Alberta Bureau of Statistics maintains approximately 8000 timeseries on CANSIM of Alberta specific data at both the provincial and sub-provincial level.

The majority of information contained in this publication is available on CANSIM. For your convenience we have provided CANSIM matrix numbers at the bottom of most tables.

CONSUMER PRICE INDEX

The Consumer Price Index(CPI) is a price index which measures the percentage change through time of a constant quantity and quality of goods and services purchased by a representative Canadian urban family in a specified time period. The CPI for each city measures price changes from one time period to another within that specific city. Thus, while city CPI's show the movement of prices in each city, they do not indicate price level differences between cities, or between cities and Canada. The CPI is not a measure of true inflationary-deflationary trends. The inferrence of using the CPI as a measure of true inflation or deflation is incorrect. The CPI only measures percentage changes of a "basket" of commodities - not all items which contribute to inflation or deflation are included.

CURRENCY EXCHANGE RATE

The currency exchange rate is the value of one unit of foreign currency expressed in Canadian dollars.

DWELLING COMPLETION

Dwelling completion is the stage at which all the proposed construction work on a dwelling unit has been performed.

DWELLING START

A dwelling start is recorded when the footing has been installed, that is, when the concrete has been poured for the whole of the footing around the structure.

DWELLING UNITS

1) Single Detached

This is commonly called a "single house". It contains only one dwelling unit which is completely separated on all sides from any other dwelling or structure.

2) Two Family

This category comprises single attached(double) and apartment, flat(duplex) dwellings. Double duplexes(fourplex) and row-duplexes are not included in this category.

DWELLING UNITS (CONTINUED)

3) Row

This comprises only single attached houses in a row of three or more dwellings. Row-duplexes are not included in this category.

4) Apartment and Other

This comprises apartment, flat(other), that is:

double duplexes
triplexes
row-duplex
apartments as commonly known
dwellings over, or at the back of, a store or non-residential structure.

ECONOMIC REGIONS IN ALBERTA (LABOUR FORCE SURVEY)

81: Economic Region 81 is situated in the south-east corner of the province running mainly north and south along the border of Saskatchewan.

82: Economic Region 82 is situated in the southern part of Alberta.

83: Economic Region 83 is the south-central area of the province around Calgary.

84: Economic Region 84 is a mountain territory, extending from Waterton Lakes National Park at the U.S. boundary, to Jasper National Park inclusive, and including also the Rocky Mountain Forest Reserve.

85: Economic Region 85 is the east-central area extending from the Saskatchewan border to the foothills at Rocky Mountain House.

86: Economic Region 86 is an area around Edmonton extending west to the foothills at Drayton Valley and east to the Saskatchewan border.

87: Economic Region 87 is the Alberta Peace River Region in the north-western part of the province.

88: Economic Region 88 is the north-eastern portion of the province.

EMPLOYED

The employed labour force includes all persons who during the reference week:

1) did any work at all

2) had a job but were not at work due to:
   - own illness or disability
   - personal or family responsibilities
   - bad weather
   - labour dispute
   - vacation

EMPLOYMENT/POPULATION RATIO

The employment population ratio represents employment as a percentage of the population fifteen years of age and over. The employment/population ratio for a particular group (age, sex, marital status, etc.) is the employment in that group expressed as a percentage of the population for that group.

FARM CASH RECEIPTS

This is a measure of the return to agricultural producers from the sale of all farm products except those associated with direct inter-farm transfers. Also included are Wheat Board participation payments, cash advances for farm stored grains and deferred grain receipts in Western Canada, deficiency payments made by provincial governments and the agricultural stabilization board and provincial income stabilization payments.

IN-MIGRATION

In-migration is the number of in-migrants who take up residence in another Canadian province.

LABOUR FORCE

The labour force is comprised of that portion of the civilian non-institutional population fifteen years of age and over who, during the reference week were employed or unemployed.

LABOUR INCOME

Labour income, comprising wages and salaries and supplementary labour income, is defined as all compensation paid to employees residing in Canada.

MORTGAGE LENDING RATES

The prime conventional mortgage rate is a simple average of rates as at mid-month charged by a number of large institutional lenders for residential mortgage loans. The NHA rates shown are weighted averages of rates charged by the approved lenders.

NET MIGRATION

Net migration is the sum of in-migration and out-migration in a region for a given period.

NEW HOUSING PRICE INDEX

The new housing price index measures changes in selling prices of new houses constructed by large and medium volume builders in metropolitan areas. The houses sampled are representative of the total being sold at that time but elements of quantity change are excluded from the price measure. Prices used are the selling prices agreed upon between builder and buyer at the time of signing the contract. Prices relate to mid-month. The price includes for the house and the serviced lot on which it stands.

NOT IN THE LABOUR FORCE

That portion of the civilian non-institutional population fifteen years of age and over who, during the reference week were neither employed nor unemployed.

OUT-MIGRATION

Out-migration is the number of out-migrants who leave a province to take up residence in another province.

PARTICIPATION RATE

The participation rate represents the labour force as a percentage of the population fifteen years of age and over. The participation rate for a particular group (age, sex, marital status, etc.) is the employment in that group expressed as a percentage of the population for that group.

PRIME BUSINESS LOAN RATE

The Prime Business Loan Rate is the rate charged to the most credit-worthy borrowers. The rate shown is as at month-end; when there are differences in the rate charged by individual banks, the most typical rate or rates are taken.

RETAIL TRADE

Retail trade is defined as the aggregate sales made through retail locations(outlets). Retail trade estimates do not include any form of direct selling which bypasses the retail store, for example: direct door to door selling; sales made through automatic vending machines; sales of newspapers or magazines sold directly by printers or publishers; and sales made by book and record clubs. Retail trade excludes: retail sales through ancillary units, for example, warehouses, head offices, etc.; sales of contractors whose major activity is not retailing; and retail transactions between individuals.

SALARIED EMPLOYEES

This category comprises executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

SEASONAL ADJUSTMENT

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally-adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, crop cycles, holidays and vacation periods, grain receipts in Western Canada, deficiency payments made by provincial governments and the agricultural stabilization board, and provincial income stabilization payments.

UNEMPLOYED

The unemployed labour force includes those persons who during the reference week:

1) were without work, had actively looked for work in the past four weeks (ending with reference week) and were available for work.

2) had not actively looked for work in the past four weeks but had been on layoff for twenty-six weeks or less and were available for work.

3) had not actively looked for work in the past four weeks but had a new job to start in four weeks or less from reference week, and were available for work.

UNEMPLOYMENT RATE

The unemployment rate represents the number of unemployed persons as a percent of the labour force. The unemployment rate for a particular group (age, sex, marital status, etc.) is the unemployment in that group expressed as a percent of the labour force for that group.

VALUE OF BUILDING PERMITS

Residential Building Permits

The classification for residential construction is intended to reflect the value of building permits issued for new dwellings: single, seasonal, double, row, apartments and conversions; for alterations and improvements to existing dwellings: additions, structural changes, residential garages and swimming pools and other improvements to existing structures.

Industrial Building Permits

Includes buildings used for: manufacturing and processing; transportation, communication and other utilities and agriculture, forestry, mine and mine mill dwellings.

Commercial Building Permits

Includes stores, warehouses, garages, office buildings, theatres, hotels, funeral parlours, beauty salons and miscellaneous commercial signs, posters, heating and plumbing installations etc.

VALUE OF BUILDING PERMITS (CONTINUED)

Institutional and Government Building Permits

Includes expenditures made by the community, public and government for buildings and structures - schools, universities, hospitals, clinics, churches, homes for the aged, blind, deaf and dumb, government office and administration buildings, law enforcement, etc.

VALUE OF SHIPMENTS

Value of shipments is defined as the gross value of goods produced from its own materials by the reporting establishment, or for its account. Value is net of discounts, returns and allowances, sales tax, excise taxes and duties, returnable containers and common or contract carriers' charges for outward transportation (but not of own carriers' delivery expense). Shipment values in this publication are monthly projections of annual census of manufacturers' values based on returns from a stratified systematic sample of manufacturing establishments.

WAGE EARNERS

This group includes employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses and working foremen performing functions similar to those of the employees whom they supervise, etc.

APPENDIX

APPENDIX

Changes currently being made to improve the production method employed for the Alberta Statistical Review, Quarterly necessitate the temporary suspension of users' table access capability through the University of Alberta computer system. However, data updates are available through the Alberta Bureau of Statistics, and will be forwarded upon request.

We hope this arrangement proves satisfactory and provides no inconvenience on the part of our users. Should there be any questions or comments, please contact the Information Services Section, Alberta Bureau of Statistics, (403) 427-3058.
